... protect the environment and your pets with

# Groundworks™

NATURAL ICEMELTER

## POWERFUL to -23°C (-9°F)

GroundWorks Natural Icemelter™ works effectively -23°C (-9°F), melting ice and snow even toughest winter conditions.

## CONCENTRATED POWER

GroundWorks Natural Icemelter™ begins to work immediately. Use 50-100 grams per square metre (1/4 - 1/2 cup per square yard).

## SAFE on LAWNS and PLANTS

GroundWorks Natural Icemelter™ is a fertilizer based product that will not harm vegetation or soil structure, when used as directed. It is harmless on groundwater systems.

## SAFE on CONCRETE

GroundWorks Natural Icemelter™ does not chemically affect quality air entrained concrete or treated wood. It allows for a greater volume of water to evaporate, assisting in the prevention of damage to concrete associated with freeze/thaw cycles.

## NO MESSY RESIDUE

GroundWorks Natural Icemelter™ does not leave an oily residue. It reduces to a colorless and odourless liquid with a more neutral pH balance.

## SAFE to HANDLE

GroundWorks Natural Icemelter™ will not harm humans or animals. It is safe to handle. Gloves are optional. WHMIS exempt in Canada. OSHA exempt in USA.

## SAFE for PROLONGED STORAGE

GroundWorks Natural Icemelter™ will not lose its effectiveness during prolonged storage or when opened. It does not require special storage facilities nor special handling procedures that are common to many other ice melting products.

## STRONG SUPPORT PROGRAMS

GroundWorks Natural Icemelter™ is supported both in-store and nationally with point-of-sale material and advertising campaigns. XYNYTH Manufacturing offers marketing strategies that work.

## PET-SAFE

GroundWorks Natural Icemelter™ is completely safe for use around children and pets.
